

Sappi. Eco. Effective.

Stockstadt Mill, Germany

Coated and uncoated fine paper

Stockstadt Mill is an integrated mill, located in the metropolitan area of Frankfurt on Main. It has two paper machines. PM1 is the only machine within Sappi to produce uncoated paper and is ranked number one with regard to the lowest specific power requirement in a worldwide benchmark of 49 paper machines. PM2/SM produces multi coated fine paper and speciality papers. The mill has its own power station and waste-water treatment plant and is home to Sappi Europe's sole lignosulphate plant where Sappi Biotech Lignin manages the black liquor derived from the pulp process.
