

Integrated Management Systems Policy

Sappi – Cloquet Operations

Sappi Cloquet, a manufacturer of coated printing paper, Specialised Cellulose and bleached kraft pulp, is committed to achieving excellence in quality, health & safety and the environment.

We recognize that responsible use of natural resources, linked with social responsibility and sound economic performance are the requirements of a sustainable business. Therefore, the company is committed to energy efficiency, minimization of waste, the adherence to regulatory requirements, the prevention of pollution and the continual improvement of its environmental, health & safety and quality performance.

We are committed to delivering continual improvement of our management systems by setting objectives, monitoring, measuring and reviewing our conformance and performance to these policies, procedures and goals.

We shall ensure continual improvement of significant environmental aspects and prevention of pollution by:

- **Assessing and mitigating any potential negative environmental impacts of products or processes.**
- **Using the best practical means to identify and prevent incidents that cause significant adverse environment impact.**
- **Training and educating employees and orient contractors whose activities have a significant impact on the environment.**

We shall ensure continual improvement in occupational health & safety management and performance by:

- **Providing and maintaining a safe and healthful workplace.**
- **Training employees and orient contractors whose activities have an impact on occupational health & safety.**
- **Identifying and reducing safety risks.**

We shall ensure continual improvement and customer satisfaction by striving for excellence in:

- **Consistent product quality.**
- **Customer service.**

We will directly communicate this policy to all persons working for or on behalf of the organization and make it available to the public.

Approved by: Mike Schultz, Managing Director, Cloquet Operations
