Q3 FY16 financial results

4 August 2016

Steve Binnie
Chief Executive Officer
Sappi Limited
Forward-looking statements

Certain statements in this release that are neither reported financial results nor other historical information, are forward-looking statements, including but not limited to statements that are predictions of or indicate future earnings, savings, synergies, events, trends, plans or objectives. The words “believe”, “anticipate”, “expect”, “intend”, “estimate”, “plan”, “assume”, “positioned”, “will”, “may”, “should”, “risk” and other similar expressions, which are predictions of or indicate future events and future trends and which do not relate to historical matters, identify forward-looking statements. In addition, this document includes forward-looking statements relating to our potential exposure to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity price risk. You should not rely on forward-looking statements because they involve known and unknown risks, uncertainties and other factors which are in some cases beyond our control and may cause our actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements (and from past results, performance or achievements). Certain factors that may cause such differences include but are not limited to:

- the highly cyclical nature of the pulp and paper industry (and the factors that contribute to such cyclicity, such as levels of demand, production capacity, production, input costs including raw material, energy and employee costs, and pricing);
- the impact on our business of adverse changes in global economic conditions;
- unanticipated production disruptions (including as a result of planned or unexpected power outages);
- changes in environmental, tax and other laws and regulations;
- adverse changes in the markets for our products;
- the emergence of new technologies and changes in consumer trends including increased preferences for digital media;
- consequences of our leverage, including as a result of adverse changes in credit markets that affect our ability to raise capital when needed;
- adverse changes in the political situation and economy in the countries in which we operate or the effect of governmental efforts to address present or future economic or social problems;
- the impact of restructurings, investments, acquisitions, dispositions and other strategic initiatives (including related financing), any delays, unexpected costs or other problems experienced in connection with dispositions or with integrating acquisitions or implementing restructurings or other strategic initiatives, and achieving expected savings and synergies;
- currency fluctuations.

We undertake no obligation to publicly update or revise any of these forward-looking statements, whether to reflect new information or future events or circumstances or otherwise.

Regulation G disclosure

Certain non-GAAP financial information is contained in this presentation that management believe may be useful in comparing the company’s operating results from period to period. Reconciliation's of certain of the non-GAAP measures to the corresponding GAAP measures can be found in the quarterly results booklet for the relevant period. These booklets are located in the 'Investors | Financial information' section of www.sappi.com.
Summary
Highlights

Q3 FY16

- EBITDA ex-special items US$160m (Q3 FY15 US$109m)
- Profit for the period US$32m (Q3 FY15 US$4m)
- EPS ex-special items 11 US cents (Q3 FY15 2 US cents)
- Net debt US$1,583m, down US$334m year-on-year

EBITDA Bridge*

Q3 FY15 to Q3 FY16

- Sales revenue: -15
- Price & Mix: 8
- Variable & Delivery Costs: 50
- Exchange Rate: 21
- Fixed Costs: -4
- Other: -9
- EBITDA Q3 FY16: 160

- All variances calculated excluding Sappi Forestry.
- "Exchange rate" reflects the impact of changes in the average rates of translation of foreign currency results.

* Refer to the supplementary information in this presentation for a reconciliation of EBITDA to reported operating profit and page 22 in our Q3 FY16 results booklet (available on www.sappi.com) for a definition of special items.
Product contribution split - LTM

EBITDA excluding special items*

- Specialised cellulose 46%
- Paper 54%

Operating profit excluding special items

- Specialised cellulose 61%
- Paper 39%

* Refer to the supplementary information in this presentation for a reconciliation of EBITDA to reported operating profit and page 22 in our Q3 FY16 results booklet (available on www.sappi.com) for a definition of special items. Data above excludes treasury operations and insurance captive.
Net debt/EBITDA development

Net debt/LTM EBITDA**

* EBITDA is excluding special items
** The covenant Net debt/LTM EBITDA calculation has adjustments and therefore differs from that shown above

2016: Cash = 65, Short-term = 33
2017: SPH term debt = 512
2018: EUR 350m bond
2019: Includes US$400m bond
2020: SSA = 76
2021: EUR450m bond
2022: 500
2023: 389
2032: 221
Capex development

US$ million

- Maintenance
- Efficiency
Divisional overviews
Global paper market trends

- Supply and demand
  - Uncertain macro backdrop leads to decline in consumer confidence and advertising spend
  - Operating rates declining
  - Industry closures/conversions required in coming periods

- Selling prices and input costs
  - Selling prices declining – driven by operating rates and currency
  - Variable costs still low – pulp, energy and chemicals

- Strategy
  - Reduce or convert capacity in line with demand declines
  - Reduce fixed and variable costs
- Improved year-on-year performance despite soft demand and flat pricing
- Speciality paper volumes up 15% whereas market average is 1%-5%
- Variable costs were down across all major categories due to favourable pricing and efficiency improvements

* EBITDA and EBITDA margin shown exclude special items. Refer to the supplementary information in this presentation for a reconciliation of EBITDA to reported operating profit and page 22 in our Q3 FY16 results booklet (available on www.sappi.com) for a definition of special items.

** Source: RISI
Market conditions remain challenging – realised paper prices down 5% from last year

DWP business had increased volumes with higher average prices

Release business volumes were up with growth coming in the decorative laminate and automotive end-use segments

Lower variable costs, particularly chemicals, wood and energy helped improve margins

* EBITDA and EBITDA margin shown exclude special items. Refer to the supplementary information in this presentation for a reconciliation of EBITDA to reported operating profit and page 22 in our Q3 FY16 results booklet (available on www.sappi.com) for a definition of special items.

** Source: RISI
Global specialised cellulose market trends

- Supply and demand
  - Most swing capacity has entered the market as hardwood paper pulp prices fell
  - Continued strong demand

- Selling prices and input costs
  - Spot prices rising alongside cotton and VSF prices
  - Currency fluctuations generally favour producers with non-USD cost base

- Strategy
  - Maintain low-cost position
  - Continue working with customers to support common growth
  - Investigate adjacent end-uses
Better margins year-on-year due to timing of maintenance shuts and improved selling prices - despite lower overall volumes

Weaker exchange rate led to increased wood and chemicals prices, which were offset by lower energy and raw material usage improvements

* EBITDA and EBITDA margin shown exclude special items. Refer to the supplementary information in this presentation for a reconciliation of EBITDA to reported operating profit and page 22 in our Q3 FY16 results booklet (available on www.sappi.com) for a definition of special items.

** Source: CCF
Strategic focus

Achieve cost advantages

Generate cash to strengthen balance sheet

Rationalise declining businesses

Accelerate growth in adjacent businesses from a strong base

Grow through moderate investments

2020 Vision 2050
Focus areas

Achieve cost advantages

- We work to lower fixed and variable costs, increase cost efficiencies and invest for cost advantages
  - Saiccor and Tugela turbines – FY2016/17
  - Ngodwana boiler upgrade for future debottlenecking – Q2 FY2016
  - Group procurement initiatives >$100m annually by 2020
  - Ongoing continuous improvement across all mills
Focus areas

Rationalise and optimise declining businesses

- Recognising the decreasing demand for graphic paper, we manage our capacity to strengthen our leadership position in these markets, realising their strategic importance to the group and maximising their significant cash flow generation
  - Evaluate graphic paper conversion opportunities
  - Restructured South African paper business in 2015
  - Disposed of SA recycled paper in South Africa

Where possible convert paper machines to higher margin businesses

Continuously balance paper supply and demand in all regions
Focus areas

Grow through moderate investments

- We will make smaller investments in existing areas with strong potential growth, including pulp, speciality grades and packaging papers
  - Additional packaging at Ngodwana and Tugela
  - Electricity opportunities in South Africa
  - Debottlenecking of Saiccor and Ngodwana DWP
  - Explore opportunities in Specialty Packaging
  - Securing additional HW timber supply in SA
Focus areas

Generate cash to strengthen the balance sheet

- US$400m 2017 bonds callable in April
- Sale of both Enstra and Cape Kraft Mills completed
- Refinancing and debt reduction leads to lower finance cost
Focus areas

Accelerate growth in adjacent businesses from a strong base

- We will continue our focus on having a cleaner, stronger balance sheet so that we can then accelerate our growth in adjacent businesses
  - Speciality packaging paper
  - Biomaterials, biochemicals – lignins, sugars
  - Expanded DWP portfolio – nano-cellulose, other speciality grades
Outlook

- Demand for DWP remains positive, but drought conditions in SA may force us to curtail production – swing capacity at Cloquet expected to mitigate impact.
- Graphic paper markets have weakened but low input costs are allowing us to maintain margins. Q4 orders have been robust.
- Based on current market conditions, and assuming current exchange rates, we expect Q4 FY16 EBITDA to be in-line with that of the prior year.
- Q4 capex approximately $100m: maintenance, energy and efficiency.
- Reduce net debt further toward our target of two-times net debt to EBITDA.
Thank you –
