

2021 price list

The Seed Technology Programme of Sappi Forests is committed to providing high quality, genetically improved tree seed.

Sappi seed is sold on a per viable seed basis. The price of each seed order is calculated based on the actual number of seeds supplied, adjusted by the tested germination potential of the relevant seed lot, and a nursery factor experimentally determined for each species and seed size grade.

ZAR per viable seed	Sappi Seed Class		
	Select	Superior	Elite
Eucalypts	0.14	0.16	0.19
Pines			
Acacia	0.02
