**Assuring stakeholders**

External assessments and independent third-party certifications give our stakeholders confidence that our reported performance indicators are reliable, accurate and pertinent.

**Forest certification**

Forest certification provides assurance that our products originate from responsibly managed forests. All our mills are Chain of Custody (CoC) certified. Knowing the origin of wood is a fundamental prerequisite to ensure responsible woodfibre sourcing.

**Available online**

All our third-party issued certificates can be viewed (and downloaded) on our website at <https://www.sappi.com/certifications>
