

Galerie Lite

We engineer Galerie Lite using film-coating technology and tailor-made pigments to ensure impressive paper properties and image reproduction, making this the perfect match for high-circulation magazines, high-volume catalogs and inserts. Galerie Lite is ultra-lightweight with high bulk and opacity—saving you money on both paper and postal costs.

Lower basis weights, higher caliper

Reducing basis weight by 5 to 8 percent helps to lower paper, mailing and transportation costs while maintaining the feel of a heavier sheet.

Better runnability, superior opacity, sharper image

Routinely outperforms competitors with better tensile strength, reduced show-through at lower basis weights, and sharper images across the range of basis weights.

Environmentally responsible

PEFC™ certified, ensuring that the fiber is sourced from responsibly managed forests and compliant with the Lacey Act.

Galerie Lite—Web (Gloss)
